

2023 MTBN.NET HOSTING

MTBN.NET

Being a hosting customer can be embarrassing - you often have to deal with network outages and a substandard and sluggish customer service. On top of that, you have to sign at least in 2 administration dashboards so as to administer your [domains](#), billing transactions and your web site itself. When we established MTBN.NET, we tried to alter all that.

A Modern Approach to Hosting

The web hosting Control Panel is the part of the web hosting platform that the customers in fact see. And 90% of the hosting vendors out there employ the same Control Panel - cPanel. We, however, look upon cPanel as being old and hard to work with - it simply impedes our work. That is why we reached the decision to use a different hosting Control Panel - the [Hepsia Control Panel](#). It's new, has an ultramodern look & feel and offers billing, domain name and web site administration possibilities, so you can administer all facets of your Internet presence from a single place. Additionally, it has a drag & drop [File Manager](#), so you won't have to use a third-party FTP client. Our tests have proven that the Hepsia web hosting Control Panel is three times faster than other Control Panels! We have also created a web hosting Control Panel demo account - you can check for yourself how the Hepsia hosting Control Panel works.

A Stable Hosting Service

Your site has to be available online. This is why we count on blazing-fast hosting servers driven by the successful mix of Linux and Apache. We are also partnering with four world-class datacenter facilities where you can host your website. This allows us to offer a ninety-nine point nine percent network uptime guarantee.

A People-Focused Approach

Last, but not least - we are there for you! We have [Live Chat](#) technicians who are there to respond to all your pre-sale queries and to help you fix small technological issues.

We have a superb 24/7/365 customer service. We offer a 1-hour support ticket response time guarantee, but in most situations our customer care team representatives respond to trouble tickets in no more than twenty mins!
